C@RE Augmented reality approach for personal care

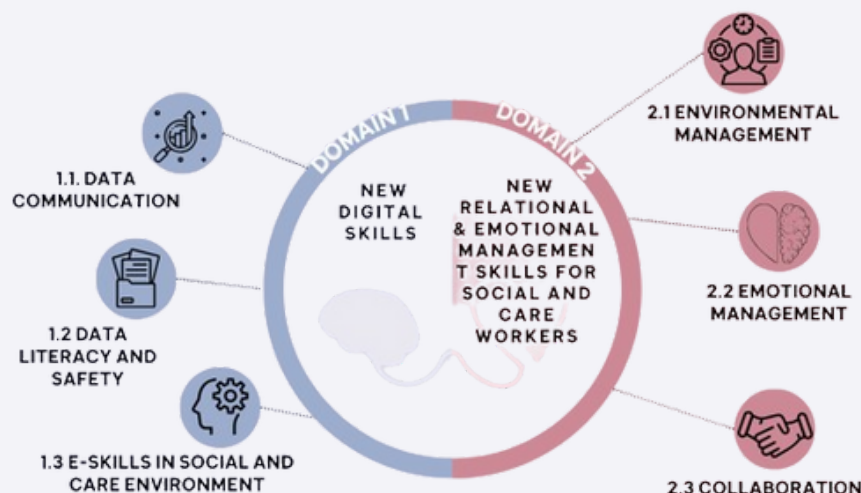

May 2024

## C@RE Competence Framework

The partners collaborated and developed the **C@RE COMPETENCE FRAMEWORK** for social and care workers in the EU to support them face future labour market challenges in the care sector.

This model formalises and clarifies what **crucial skills and competences social and care workers need to possess** in their field.

The model is developed in **two main categories**, each domain being divided by specific competences.

### Domain 1: NEW DIGITAL SKILLS

- 1.1. DATA COMMUNICATION
- 1.2 DATA LITERACY AND SAFETY
- 1.3 E-SKILLS IN SOCIAL AND CARE ENVIRONMENT

### Domain 2: NEW RELATIONAL & EMOTIONAL MANAGEMENT SKILLS for SOCIAL AND CARE WORKERS

- 2.1 ENVIRONMENTAL MANAGEMENT
- 2.2 EMOTIONAL MANAGEMENT
- 2.3 COLLABORATION

# The assessment e-tool

An **online questionnaire**, available on the project website, has been developed for the social and care workers to assess their level of skills and competences (technical and soft skills) and to understand the most suitable training to fill their gaps.

**Assessment e-tool  
AVAILABLE HERE**

## ONLINE Transnational Project Meetings

**2nd TPM**

**15.06.2023**

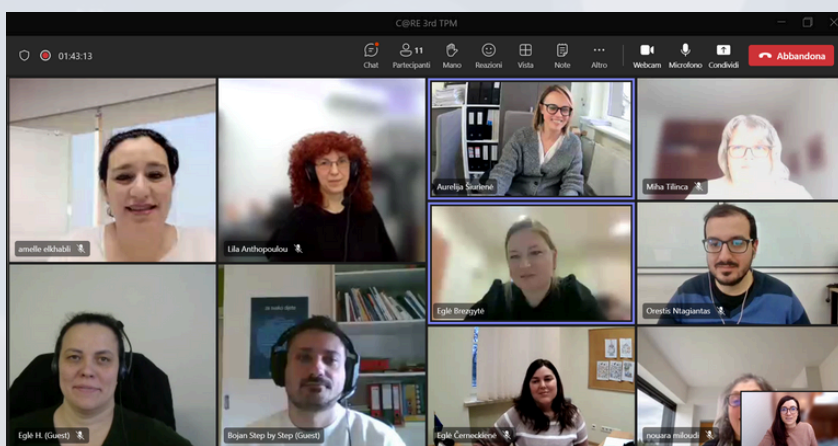

During these meetings, the partners met online to monitor the progress of the project and present completed and future activities.

In addition to management, dissemination and quality aspects, the **2nd TPM** focused on the finalisation of the **C@RE Competence Framework** and the development of the Training Course, and the **3rd TPM** on the finalisation of the **learning scenarios** and testing phases.

**3rd TPM**

**5.01.2024**

Co-funded by
